BRONZE AGE

RANGE NOW AVAILABLE IN LED

THE GAREMA LIGHTING PHILOSOPHY

“
FROM A CRUCIBLE
OF MOLTEN FIRE THERE
COMES THE FINEST
LUMINAIRES - WITH
STRENGTH, BEAUTY AND
A LIFE OF ITS OWN.

GAREMA
LIGHTING
SOLID
BRONZE

Design by Map Technologies

OUR PHILOSOPHY is to use recycling in our Solid Bronze range so that the impact on the environment is minimised. Our bronze product line is manufactured in Australia from recycled Shotgun Bronze.

The aluminium range is constituted from recycled metal so that, where possible, use of new metal is kept to the lowest percentage that is consistent with our quality values.

THE SOLID BRONZE COLOUR RANGE

NATURAL BRONZE

natural new finish

aged 1 year

aged 2 years

Demonstrating the timeless quality of this beautiful metal, our classic bronze finished luminaires age with the weather, resulting in a rustic patina that is perhaps the most charming of any finish.

Aluminium Powdercoated product available on request.

THE NEW BRONZE AGE

ONCE CONSIDERED
SO VALUABLE IT WAS
USED AS CURRENCY

NOW CONSIDERED
SO VALUABLE WE
USE IT IN OUR
LIGHT FITTINGS

BRONZE. A METAL whose impact upon humanity has been so profound that an age of man is named after it, the Bronze Age.

Bronze, superior to most other metals in every way, its very name conjures up the mystical romance of the ancient Greeks and Celtic lore. Said to be smelted in the furnaces of the Gods themselves it has been used for currency, ornaments, tools, weapons and armour.

One of Bronze's most engaging qualities is the superficial oxidation, the Patina, which forms on the surface and protects the underlying layer from corrosion. It is this aging surface lustre that makes Bronze so very attractive, with its deep hues and tactile erosion the metal takes on a life of its own with a character that defies description.

Now the Bronze age has been reinvented by Garema Lighting. Using all the beauty, strength and versatility of this incredible metal to create an astonishing series of outdoor light fittings that resonates with the vibrancy of a new Bronze age.

The Solid Bronze range, designed for you to enhance any outdoor area.

THE SOLID BRONZE DESIGNER RANGE

WITH DEEP HUES
AND TACTILE
SURFACE EROSION,
AGED BRONZE
TAKES ON A LIFE
OF ITS OWN.

THIS IS ONE OF
THE REASONS WHY
IT WAS THE METAL
OF CHOICE WHEN
WE CREATED OUR
RANGE OF LIGHTING
AND CALLED IT
SOLID BRONZE

THE SOLID BRONZE range by Garema Lighting has been designed and manufactured in Sydney from 99% recycled Shotgun Bronze.

The tumble finish enhances the natural beauty of the metal and allows aging to take place to show off the Patina to its most elegant result.

Facia fixings require only a simple Hex Key. The lens plate that protects the Teflon coated lamp holder is a ceramic composite which ensures a robust and trouble free life.

Our Aluminium range of products are available in textured Black, silver and white. The weather facing finishes are protected by superior powder coating to increase their resistance to the elements. As part of our ecofriendly ethos, all Aluminium is at least 90% recycled to help sustain the environment.
